

Borders shouldn't be layouted outside the layout area.

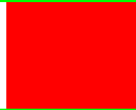

The diagram consists of a large green rectangle on the left and a large red rectangle on the right. The green rectangle is wider than it is tall, while the red rectangle is taller than it is wide. A small white rectangular box is positioned in the center of the green rectangle, containing the text 'Borders shouldn't be layouted outside the layout area.'.

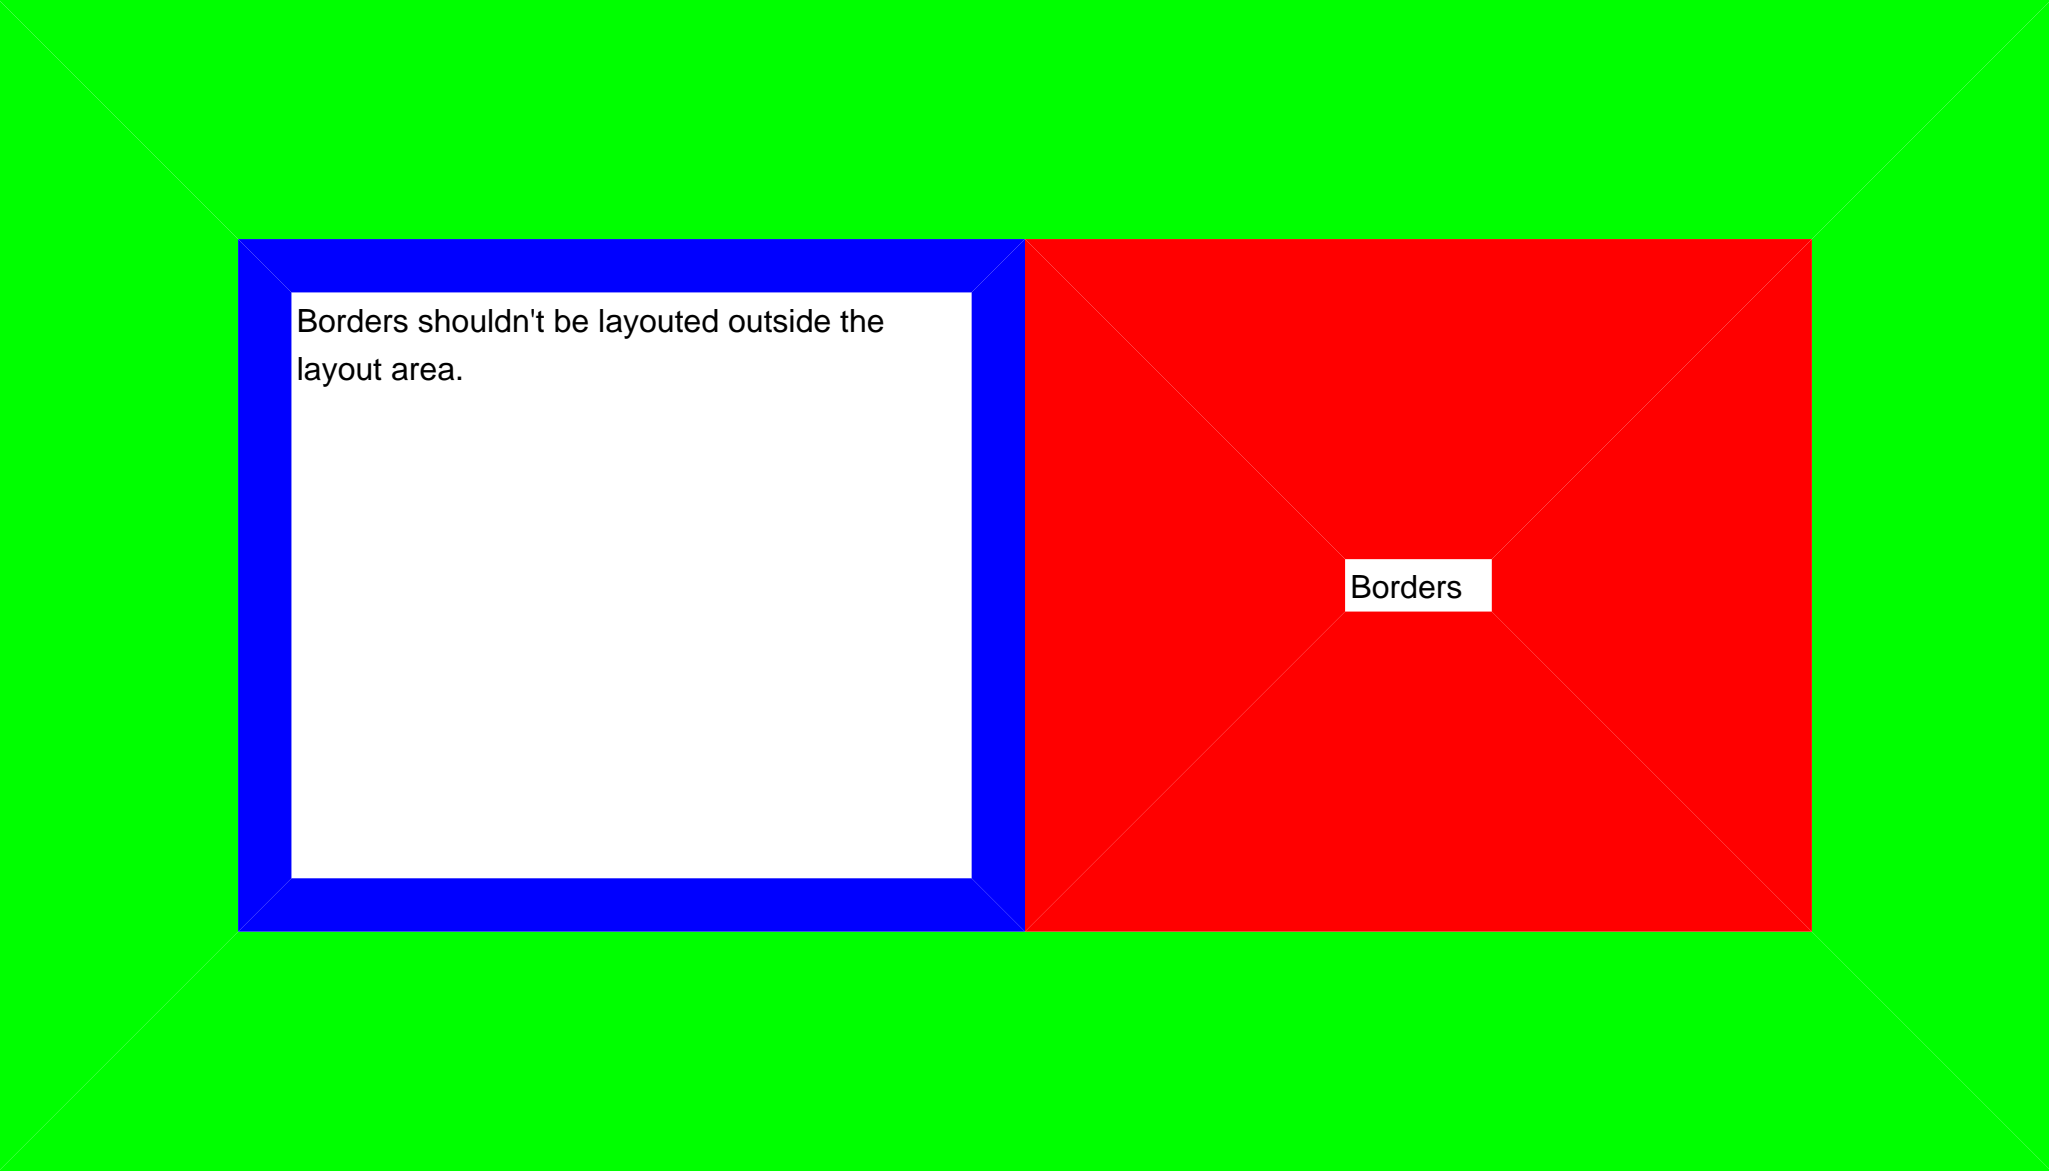

Borders shouldn't be layouted outside the layout area.

The diagram consists of a large red rectangle on the right and a large green rectangle on the left. The red rectangle is taller than it is wide, while the green rectangle is wider than it is tall. A small white rectangular box is positioned in the center of the red rectangle, containing the text 'Borders shouldn't be layouted outside the layout area.'.

Borders shouldn't be layouted outside the layout area.

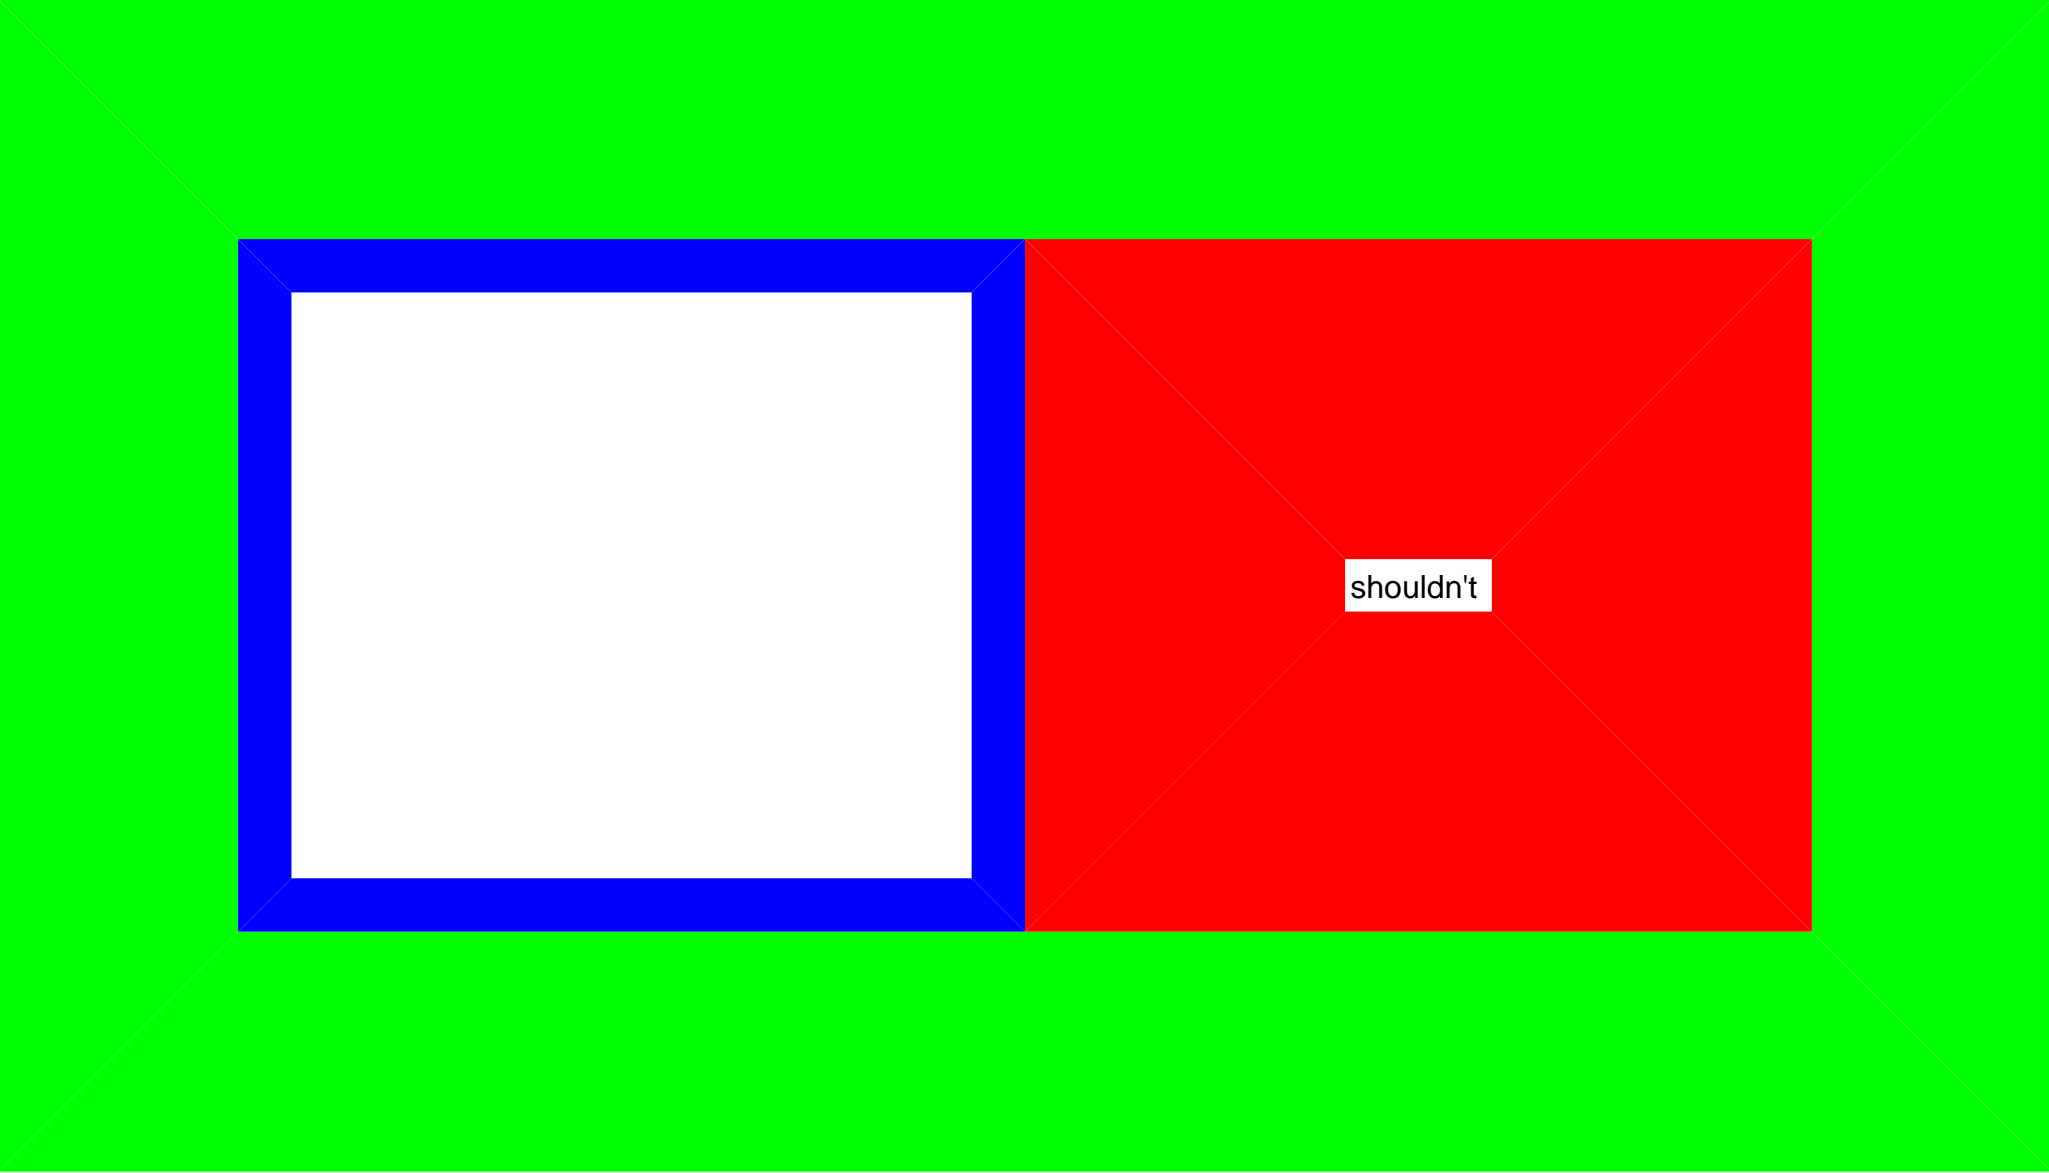

Borders shouldn't be layouted outside the layout area.

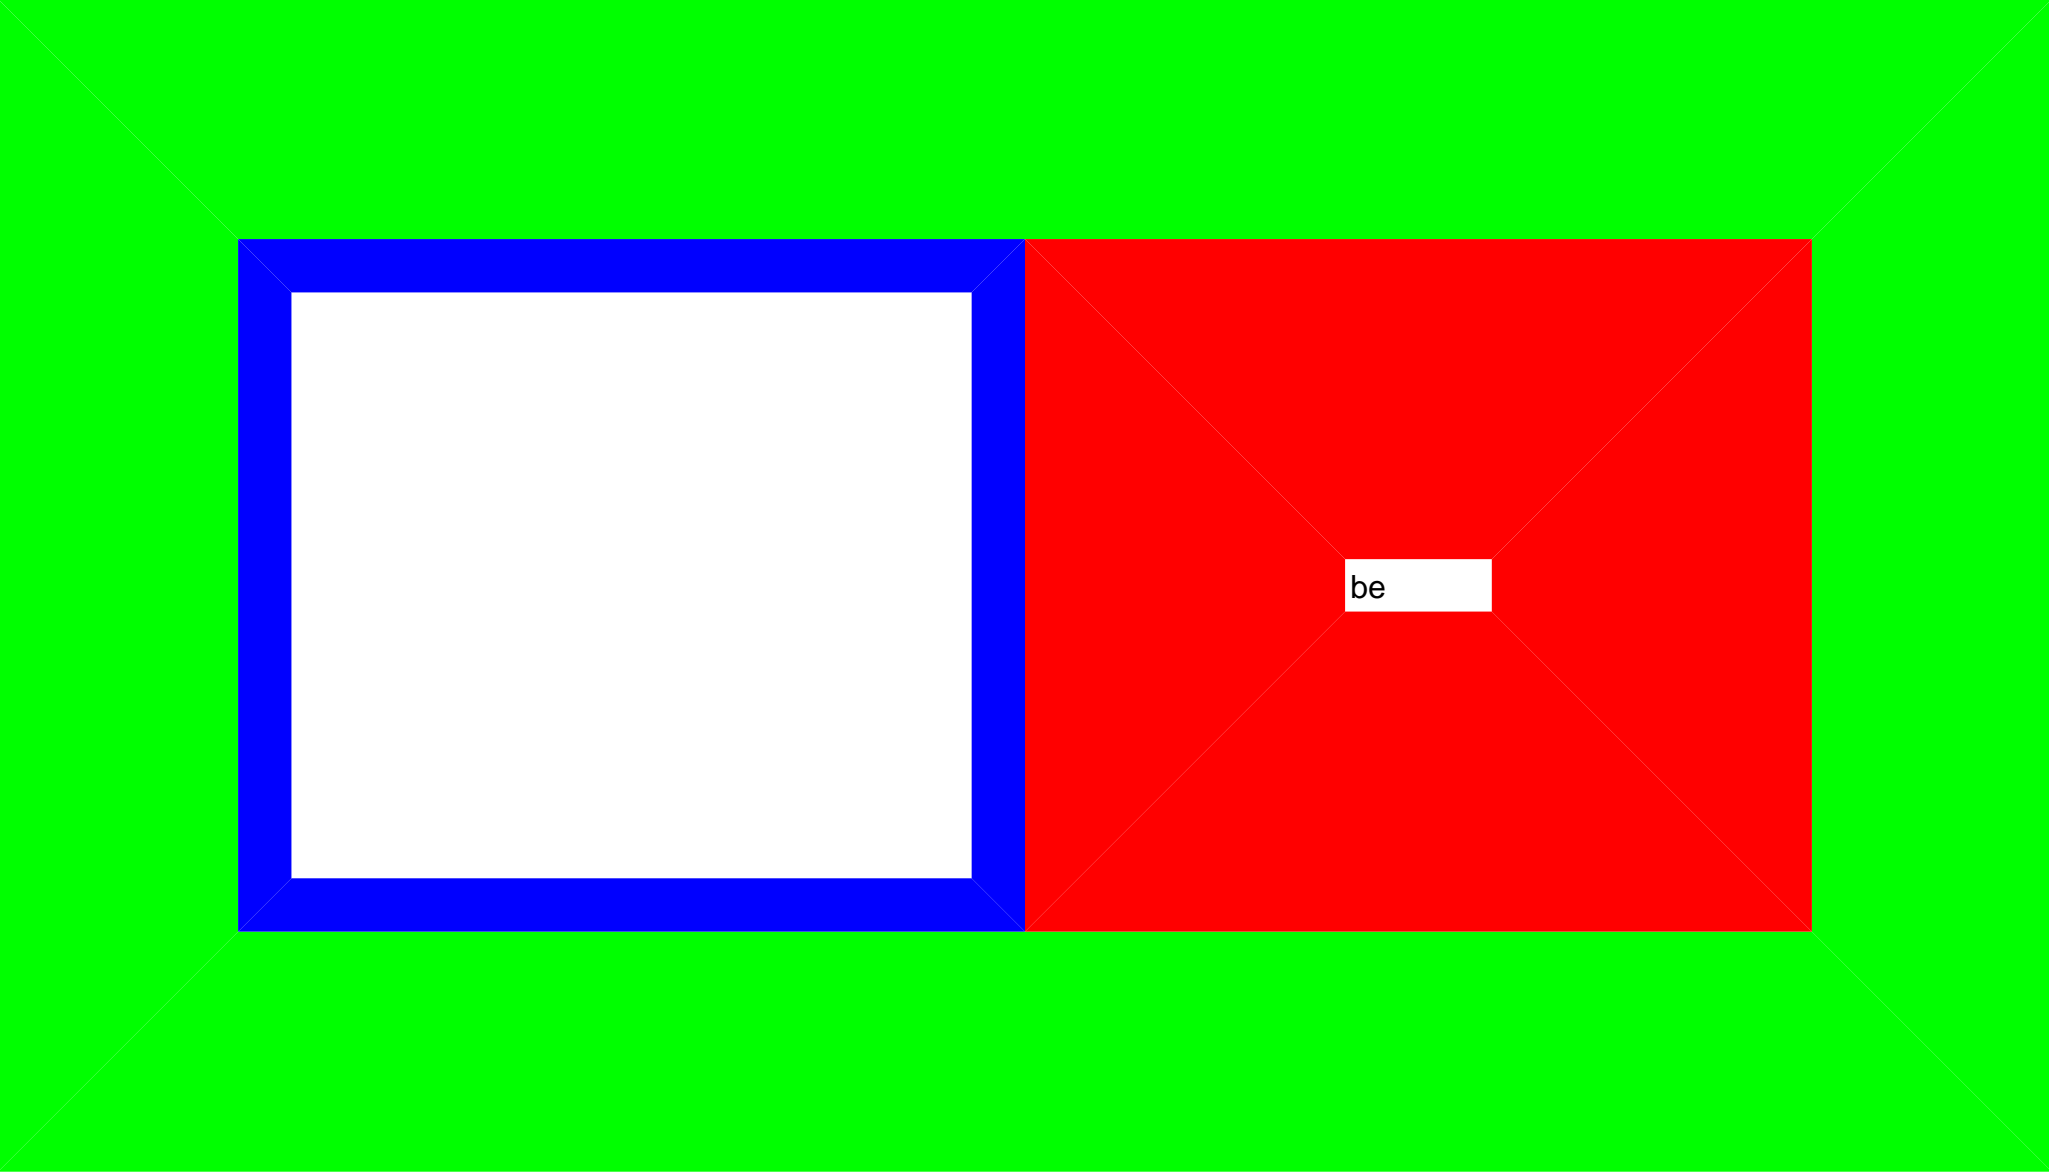

The diagram consists of a large green rectangle representing the overall page. Inside this rectangle, on the left, is a white rectangle representing the 'layout area'. This white rectangle is enclosed by a thick blue border. To the right of the white rectangle is a large red rectangle. This red rectangle is divided into four triangles by two thin red diagonal lines that intersect at its center. A small white rectangle is positioned at this intersection point. The text 'Borders shouldn't be layouted outside the layout area.' is located inside the white layout area. The word 'Borders' is written inside the small white rectangle at the center of the red area.

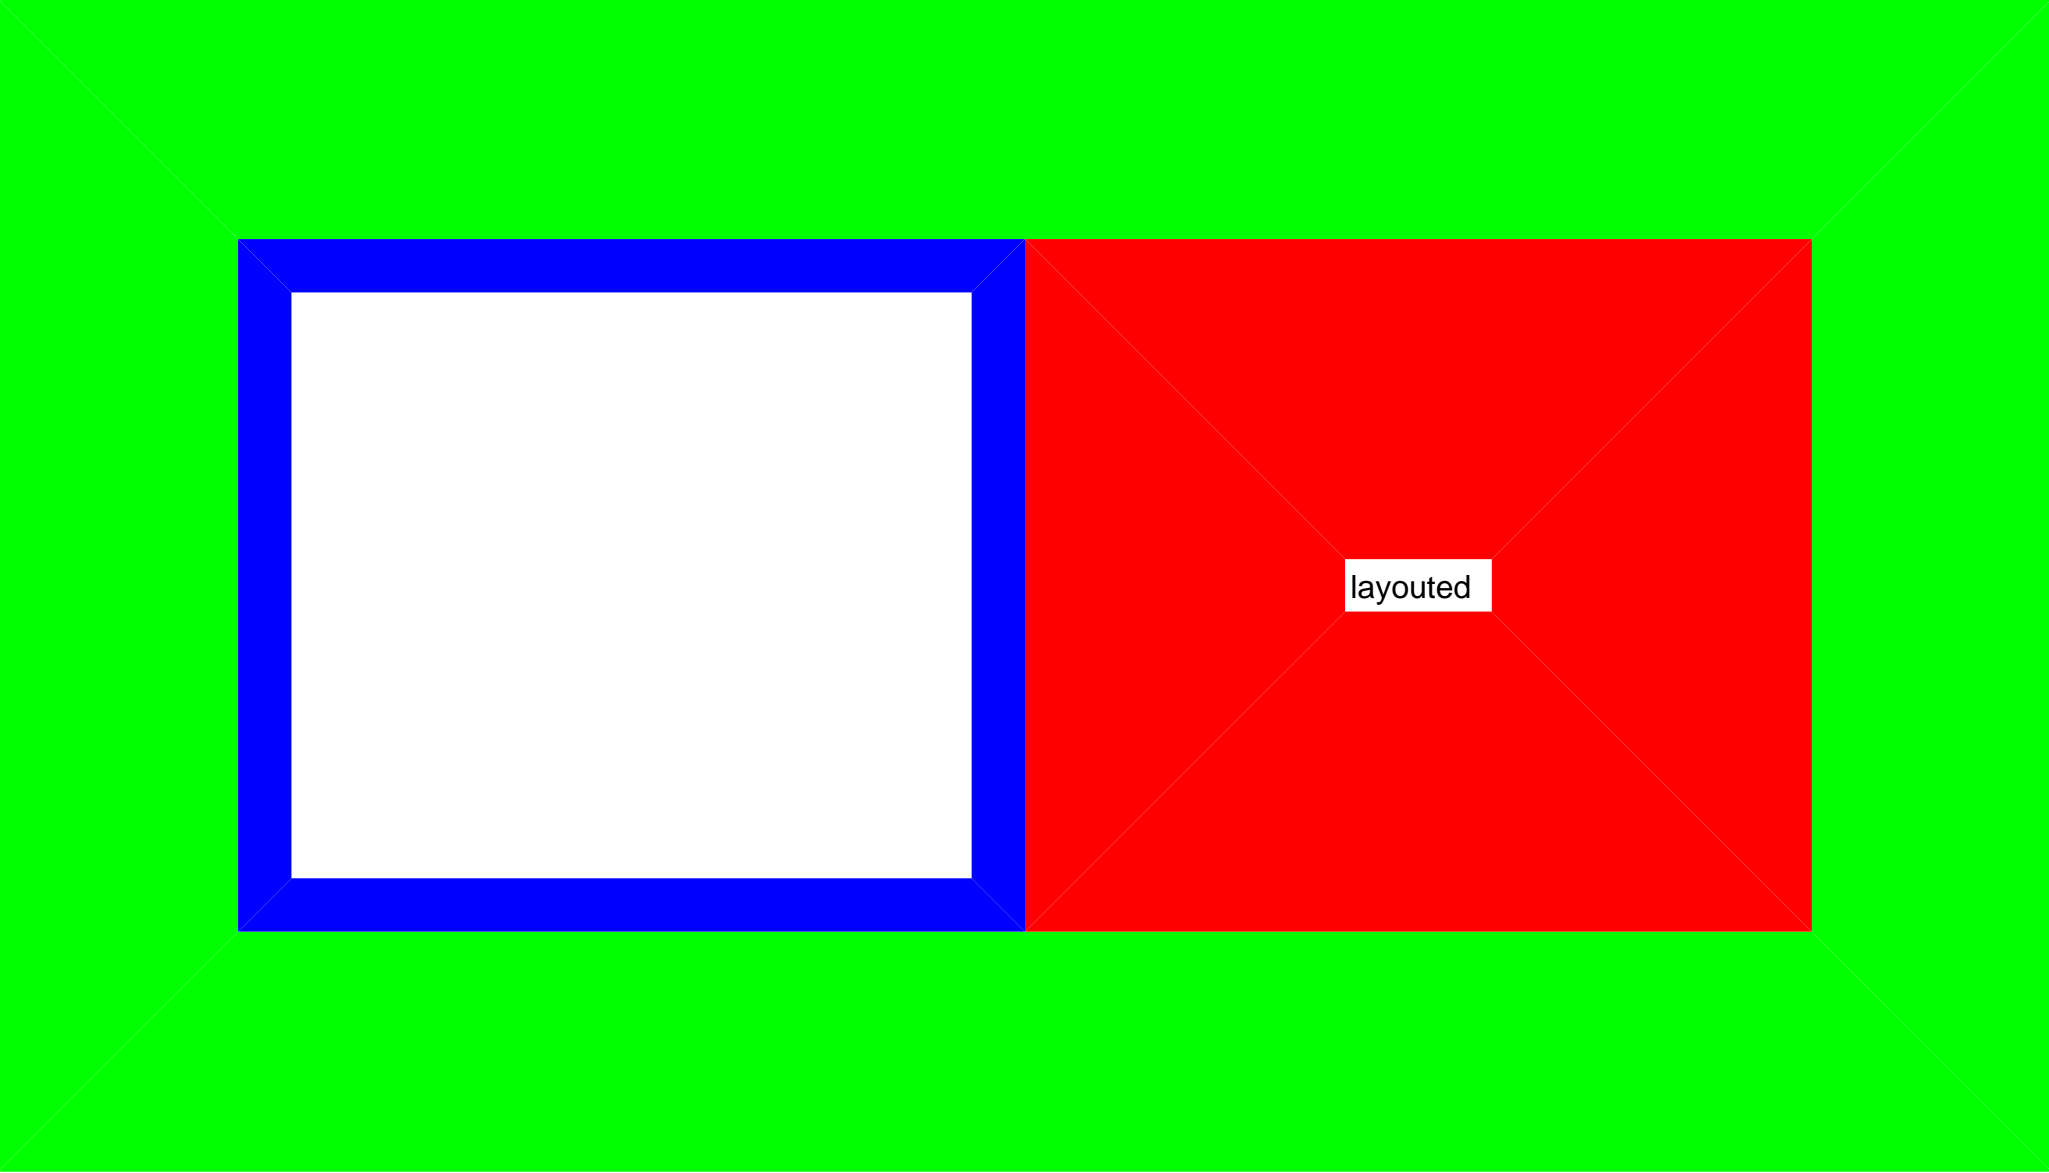

Borders shouldn't be layouted outside the layout area.
