The first published account of what would evolve into the Mafia in the United States came in the spring of 1869. The New Orleans Times reported that the city's Second District had become overrun by "well-known and notorious Sicilian murderers, counterfeiters and burglars, who, in the last month, have formed a sort of general co-partnership or stock company for the plunder and disturbance of the city." Emigration from southern Italy to the Americas was primarily to Brazil and Argentina, and New Orleans had a heavy volume of port traffic to and from both locales.
